Professional Summary

Passionate and results driven Senior Software Engineer with over 11 years of experience building scalable web applications. Specialist in front-end development and modern JavaScript ecosystems, with a proven track record at Big Tech companies like Amazon and Oracle.

Professional Experience

AMAZON | Dallas, Texas / Seattle, Washington
SDE (12/2021 - 10/2024) / Front end Engineer (10/2024 – Current)

- Spearheaded the architectural transition of critical legacy codebases to modern React and TypeScript frameworks, improving code maintainability and type safety across major internal tools.
- Improved application performance and reliability through systematic code reviews, refactoring, and proactive bug detection, reducing production issues and on-call incidents.
- Engineered reusable component libraries and front-end utilities, reducing development time for new features across multiple cross-functional teams.
- Participated in on-call rotations, quickly diagnosing and resolving production issues.
- Authored technical documentation to support long-term maintainability and onboarding.

Key Projects: Tell Amazon, Seller RaV, Brand RaV and Noreaster.
Stack: TypeScript, AWS (DynamoDB, Step functions, S3), React, JavaScript, SCSS, Jest, Mocha.

ORACLE | Zapopan Jalisco, Mexico
Applications Developer (07/2020 – 12/2021)

- Developed and enhanced user interfaces with a strong focus on usability and accessibility using Oracle JET and TypeScript.
- Collaborated in code reviews, providing and incorporating feedback to maintain high engineering standards.
- Ensured high software reliability by achieving extensive unit and functional test coverage using Sinon and Chai.
- Led technical knowledge-sharing sessions (dev. shares) to introduce new features and best practices to the wider engineering organization.

Key Projects: HED Student Cloud
Stack: TypeScript, Oracle JET, JavaScript, SCSS, Git, Sinon, Chai.

MATCH ANALYSIS | Mexico city / Remote
Full Stack Developer (05/2015 – 12/2019)

- Designed and developed interactive tools including a custom cartoon character creator and social analytics features.
- Built responsive, user-friendly frontend interfaces and optimized assets to significantly improve page load times.
- Refactored legacy systems to modern architectures, improving maintainability and scalability.
- Developed backend services including a live feed system using Java and PL/SQL.
- Actively reviewed code, debugged issues, and ensured production stability.

Key Projects: Tango, Tango LIVE
Stack: JavaScript, Java, HTML, CSS, JSP, MySQL, PL/SQL, Tomcat, Apache.

Early Career Experience

MEDIOS ALTERADOS | Full Stack Developer (11/2014 - 05/2015)
FEDERACION MEXICANA DE FUTBOL |Java Developer (03/2014 - 09/2014)
PROSPECTIVA | Java Developer (11/2013 - 03/2014)
CONDUSEF |Junior Java Developer (04/2013 - 11/2013)

Worked across multiple organizations building web applications and backend services using Java, Spring, MySQL, and JavaScript.

EDUCATION

Instituto Politécnico Nacional, 2009 – 2013
Bachelor of Science: Information and Computer Sciences.

FREECODECAMP.ORG
Responsive Web Design Certification

LANGUAGES

- English
- Spanish

CORE SKILLS

Frontend: TypeScript, React, JavaScript (ES6+), HTML5, CSS3, SCSS, Oracle JET, AUI, Bootstrap, jQuery.

Backend: Java, Node.js, Spring Boot, JSP, PHP.

Cloud & Databases: AWS (DynamoDB, Lambda, S3), MySQL, Oracle DB, PL/SQL.

Tools & Testing: Git, NPM, Jest, Mocha, Sinon, Chai, Tomcat, Maven, Docker, Photoshop.

PERSONAL PROJECTS & HOBBIES

- **Game Development:** Programmed and animated custom characters for Nintendo Wii (Smash Bros) using 3DMax, BrawlBox (scripting), and Photoshop. Developed two RPG titles using RGSS2 (Ruby).
- **Open Source:** Maintain a personal portfolio and experimental projects exploring React.js, Angular, and Spring Boot.
